The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/796,760	Applicant(s) GOLAND, YARON Y.	
	Examiner ALINA N. BOUTAH	Art Unit 2143	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

This action is in response to Applicant's amendment filed February 25, 2008. Claim 34 has been newly added. Claims 1-34 are pending in the present application.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Newly added claim 34 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The "system" as claimed lacks evidence of storage on a medium which enables any underlying functionality to occur. The elements listed in the claim (senders and receivers) are not necessarily hardware elements. Instead, one can reasonably interpret them as software. Software, per se, is non-statutory. See M.P.E.P. 2601.1 Section I, which states, "Since a computer program is merely a set of instructions capable of being executed by a computer, the computer program itself is not a process and USPTO personnel should treat a claim for a computer program, without the computer-readable medium needed to realize the computer program's functionality, as nonstatutory functional descriptive material."

Allowable Subject Matter

Claims 1-33 are allowed.

In combination with every limitation in the claims, the prior art of record fails to explicitly teach the ability of a sender to “associate messages in a group with both a sequence group identifier for that group and a sequence number for each message, and to then send messages to a plurality of receivers, wherein each of the receivers identifies messages having common sequence group identifiers and then cooperates with other receivers to process those messages in the particular order” as claimed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
